On June 1, 2000, the Trust Lands Administration announced that it would receive competitive bids up until June 30, 2000, 5:00 P.M., for a Mineral Materials Permit authorizing the removal and sale of sandstone boulders. The lands within the tract are described as follows.

Bids were opened July 3, at 10:00 a.m. Mr. Blake recommends that the Director approve the high bid for the first year's rental and issue a mineral materials permit effective July 1, 2000. This application has been checked and platted by the Minerals Section and found to be in order. The land status has been examined and the lands found to be open and available. The surface is owned by the Trust. The permittee is authorized to remove surface stone only and no digging up of the surface is permitted.

The Director rejected the other bid and ordered the advance rental returned to the applicant, filing fee forfeited to the Trust Lands Administration.
